**QUÈ ÉS I PER A QUÈ SERVEIX?**

This procedure allows a simulation to be performed of an online Generalitat Valenciana procedure.

The aim is for members of the public to familiarise themselves with the steps involved in processing the administration's online procedures and to check that the equipment from which they are going to carry out a procedure is suitable for this purpose.

The simulation carried out as part of this procedure is an application to take an examination. All the steps are completely fictitious, although the person doing the simulation will be able to see the result in their citizen folder once they have finished the procedure. Completing this procedure does not involve any administrative action.

**REQUISITS**

- If the application is to be submitted as a representative, either of a natural person or a legal entity, it should be borne in mind that, in a real procedure, not a simulation, the representative will need to prove their status, either at the start of the procedure or during the processing of the procedure.

- The means of accrediting representation online is through:

The Comunitat Valenciana Technology and Electronic Certification Agency (ACCV) Representatives Register or, In the case of full representation, for any procedure and before any Public Administration, through the General State Administration's Electronic Power of Attorney Register.

- It is important to highlight that the procedure may be carried out even if the representation is not initially accredited; in a real procedure, in the event that this representation is not registered online, it will be required later by the body managing the procedure.

- To prove that you are a representative, you can register as a representative for the Simulation Procedure in the ACCV's Representatives Register.

Under this circumstance, when you enter your Citizen Folder you will be able to view your representation and you will be able to see everything related to this procedure, both the applications submitted by you as a representative and those submitted by the interested party you represent for the simulation procedure.

**INTERESSATS**

Any citizen can use this procedure.

It is also possible to carry out the procedure as a representative.
